Евразийский экономический союз

Национальный статистический комитет Кыргызской Республики открывает специальный раздел, содержащий информацию об организации сбора и учета взаимной торговли товарами с государствами-членами Евразийского экономического союза.

В данном разделе размещается информация, предназначенная для хозяйствующих субъектов и предпринимателей, осуществляющих внешнеторговую деятельность с государствами-членами Евразийского экономического союза (Российской Федерацией, Республикой Беларусь, Республикой Казахстан, Республикой Арменией).

Учитывая, что со дня вступления в силу договора о присоединении Кыргызской Республики к Евразийскому экономическому союзу, таможенное администрирование на границе с Республикой Казахстан прекращается, в связи с чем учет объемов взаимной торговли с государствами-членами Евразийского экономического союза будет осуществляться органами государственной статистики путем получения от хозяйствующих субъектов, осуществляющих внешнеторговую деятельность, необходимой статистической отчетности.

К настоящему времени разработан необходимый статистический инструментарий и проводятся

Measures to improve statistical coverage

1. Data of the State Tax Service for Jan-Dec 2015 and Jan-Jun 2016 about importers and exporters in EAEU countries
2. Comparison with data of current state statistical observations and identification of a list of economic entities that have not reported
3. Bilateral comparison of data on selected goods with specialists of the Federal Customs Service of Russia (in Bishkek)
4. Bilateral comparison of data on selected goods with specialists of the National Statistical Committee of Belarus, Statistics Committee of Kazakhstan and Statistics Agency of Armenia

Tasks

1. Access to **primary administrative data** of state bodies of Kyrgyzstan: State Registration Service, State Tax Service, Ministry of Transport and Roads, Ministry of Agriculture, Food Industry and Melioration, State Inspectorate of Environmental and Technical Safety, etc. (December 2016 – conclusion of bilateral agreements on information exchange)
2. Conduction of monthly round-the-clock selective examinations of individuals over 7 days on border crossing points (extra financial and human resources are needed)
3. Development of new software for processing, comparing, analyzing and distributing statistical data on foreign trade and mutual trade (1st quarter of 2017 using a Russian grant)
4. Development of methodology of statistics on mutual trade (based on recommendations of Eurasian Economic Commission, ADB project, experience of EAEU countries)
5. Capacity building and skills development of specialists of the National Statistics Committee (training and experience exchange are needed but no resources!)

Thanks for attention!
